Studying history of our country can not only enhance students wisdom and improve their humanistic quality, but also help them understand the culture and spirit of our country. The General History of China is compiled according to the modern-type educational concept and the research results of quality-oriented education of Chinese history teaching. According to the chronological order of Chinese history development and replacement of dynasties, the book is divided into two volumes, including twenty two chapters. Combining precious history pictures with straightway written description, it introduces the history themes in all-directions, reflecting the big matters, major figures and the outstanding achievements in scientific and cultural field vividly, authentically, comprehensively and objectively. It covers the contents in politics, economy, military, culture, diplomacy, scientific, legal, religion, art and folk custom fields. The Book focuses on exploring the regular pattern of Chinese development and history developing students interest of getting knowledge nutrition and wisdom from history learning. It uses simple and description and pictures of historical value to make students have an intuitive feeling for the development of Chinese nation, which is suitable for juvenile to read and learn.
